ROCKY RAPIDS FIRE

Staff Picture.

Fire almost destroyed the home of Mr. Jimmie Taylor, a mile north of Rocky Rapids last Friday afternoon. Jimmie has lived in the area ever since the winter of 1907 - '08 when he came in here with the Edmonton Lumber Company that winter. In just six months he will be eighty years young. In 1911 he homesteaded the place that Otto Guss now has. He has farmed a couple of other places in this district and moved

to his present house and acreage in 1947. He ranks among the "olden" old-timers of this district. He came in the same year as the Rays, who were the first settlers in the Rocky Rapids district, which, by the way, was settled before Drayton Valley. Mr. Taylor says that when he first came in here the present Drayton Valley district was not yet surveyed. (Cont., page 11, Col. 1)

"GOLDEN BOY"

"GOLDEN BOY" RUFUS COMBS IN PROVINCIALS.

The Edmonton Journal called it a "Night of Confusion" - Well, I guess it was just that. The one big thing, however, was that when the confusion was finally straightened out and the dust of controversy had settled, Rufus Combs was the 150 pound champion of Northern Alberta and therefore named to fight the Southern Champion in Calgary on April 22. If the "Golden Boy" can break through this last line of resistance he will be picked to represent Alberta in the Canadian Amateur Boxing Championships to be held in Drayton Valley in mid-May.

The story of confusion all started the first night of the two-day tournament held at the South Side Legion Auditorium on March 29 and 30. The Pembina Panther was slated to face the veteran, ring-wise, hardcock, Teddy Germaine of the best club in what was titled as a 150 pound Open Championship fight. Rufus beat Germaine in a grueling three-

District Personalities

CLOWN EMILE DOUCETTE Photo by Curt's

Contributing greatly to the success of any spectator-event are the clowns, and clown Emile Doucette, a superb skater with a most unusual clown get-up, contributed much to the fun of the Drayton Valley Sixth Annual Ice Carnival last Monday afternoon and evening.

Mr. Doucette was born in St. Boniface, Manitoba twenty-six years ago. His family moved to Virton, Man. while he was still young and he took all his schooling in Virton. After the outbreak in Virton, he went to work for Halliburton Company and in early 1950 he was transferred to Drayton Valley where he has a considerable amount of talent, or whatever it takes to make a good clown.

eighteen month old baby boy. He is an assistant tourmaster.

Although he hasn't played on any hockey team since coming to Drayton Valley, mostly because of his work-hour schedule, he had played hockey ever since he was a young boy, before coming here. As a boy he worked evenings for awhile for the Empire - Advance, the Virton weekly, folding papers, and cleaning up, etc.

Emile was ably assisted in his clowning acts by a couple of young boys, Dennis Meier and Gene Urchyngh, both of whom were transferred to Drayton Valley by his company. He is married and the father of a

MISS GETZINGER CROWNED CARNIVAL QUEEN

Photo by Curt's

Happy Queen Audrey Getzinger smiles from her throne, the huge birthday cake which had been a feast for the town. Left is Queen Candidate Miss Sharon Reynolds, and on her right is Queen Candidate Miss Paullette Doyle to the right of Miss Doyle is Miss Sharon Woods, 1959 Queen.

The Sixth Annual Ice Carnival was staged in the Curling Rink with an afternoon matinee performance and an evening performance, on Easter Monday. Attendance was good for both shows.

Theme of the show was "Polly Anna's Birthday Party". This year's performers were for the most part Drayton Valley skaters, who have been for the past season under the expert instruction of Mrs. Lillian Munroe Johnstone, of Edmonton, who was very capably assisted by these instructors as from Drayton Valley, Mrs. Lorraine Jaggard, Mrs. Jeanne

YOUR FIRE DEPARTMENT

By Ross Quinn

The do-it-yourself trend that is currently growing throughout the country is by no means absent in Drayton Valley. It seems that there are more people building, maintaining and repairing their own homes here than anywhere else.

This is undoubtedly a good thing; it's gratifying work - to the home owner, and in many cases he is able to make improvements which would otherwise be economically impossible.

However, this type of endeavor our definitely has its limits: both by law and by common sense. We refer specifically to electrical wiring and gas connections.

The law states that only qualified electricians and gas fitters can do this work, and that's the way it should be. All too often your fire department has had to include in its report of a bad fire that it was due to faulty wiring.

And we have all read of homes and other buildings blowing up, often taking many lives; caused by a leaking gas line.

Doing-it-yourself is hard to stay

and it is good; but let's leave the potential killers like gas and electricity to be handled by the competent tradesmen who know what they are doing and can help keep our homes safe.

A monument at Soderline, Italy, commemorates the birth of the Red Cross and honors Henri Dunant, the founder of the Red Cross.

A strong Red Cross means a stronger community.

LEGION BUILDING FUND

Staff Picture.

The St. Patrick's Day dance in Elks Community Hall on Friday March 17th, drew a good crowd not alone from Canadian Legion members who put it on, but also from others as well.

Getting ready for a Building Fund Drive the Legion has printed some initiation bricks, which will be worth \$1.50 each, and the money so raised will go into the Building Fund.

The Diamonds provided excellent music for the occasion, and a supper was served at midnight.

In the picture Legion president Maurice McCullagh, is seen

with Legion members Sam Steffen and Fred Jenkins, seated, with Ralph Boles, standing in the rear. Behind the four Legion men members is the architect drawing of the proposed new Canadian Legion Hall and a few of the bricks, which will be posted on the wall, with the names of the donors on them.

The Diamonds provided excellent music for the occasion, and a supper was served at midnight.

D.V. HIGHLIGHTS

(Cont' from page 3, col. 6)

matters for the landscaping of the hospital grounds. Those persons who were privileged to meet Mr. MacDonald were given a wealth of information about hardy and suitable plants for this locality.

When Mr. Gordon Kynock, then a boy of eleven, bid his sister good bye in Glasgow, before she set off for America, little did either of them dream that it would be fifty five years before they met again.

On Wednesday of this week Mr. Kynock left Edmonton by plane to visit his sister, now Mrs. Alexander Doherty, living in Mill Brook, New York. Mill Brook is seventy miles from New York City. Mr. Kynock expects to be away some time.

The Ohio Oil Company house former residence Mrs. and Miss Jack Scott who now live in Fort St. John, has recently been sold to Dome Oil Company.

Staff Picture.

These three boys kept the house of Mr. Ronnie Taylor from burning down last Friday, when a right-of-way clearing fire got out of control and swept through high dry grass around the Taylor house, a mile north of Rocky Rapids. These boys, who happened to be near by, got water and put out the fire that had already started in the bottom logs of the old log house. They are, left to right Allan Schultz, Allan Matton, and Lennie Schultz. Mr. Taylor was absent from the house at the time of the fire.

These handsome gentlemen were all present at the meeting, they are, from left to right, Arnold MacKenzie, Thoby Ben Carter, Drayton Valley Lions Club president, Roddy Ripple, District Governor, Dr. Sakakchewyan, Roy Hume, Deputy Zone Chairman, Frank Senger, Calmar; Ed Senger, Thoby; Back row, left to right, John Koflar, Thoby; Ed, Alton, Thoby; Ralph Rahl, Dean; Frank Peake, Drayton Valley; Al Miles, Drayton Valley; Clarence Matlock, Calmar; Pete Nebo, Drayton Valley; and Lytle Humeon, Devon.

Boxing News

LEUTENANT GOVERNOR ACCEPTS POST

The Drayton Valley Athletic Association were pleased to learn this week that his Honor, the Lieutenant Governor, J. Percy Page has accepted the position of Honorary Tournament Official for the Canadian Amateur Boxing Championships to be held in Drayton Valley in May.

Answering on behalf of his liege, G.A. Johnson, Secretary of the Lieutenant Governor said, "His Honor the Lieutenant Governor has asked me to thank you for your invitation and to say that he

will be very glad to accept the honor you have offered him of becoming Honorary Tournament Official of the Canadian Amateur Boxing Championships Tournament of the year to be held in Drayton Valley on May 12th and 13th, 1961.

Also Mr. Johnson added: "His Honor expects to be on his holidays at that time and may not be able to accept your kind invitation to visit your town during the Tournament, should he return by that time, however, he will certainly try to pay you a visit on May 13th."

Entry forms accompanied by letters of information on the Championships Tournament were sent across Canada this week. It's sincerely hoped that the res-

ponse will be favorable. Also the Gold and Silver medals have been received by the sponsoring organization from the Amateur Athletic Union of Canada headquarters. These are ten, gold medals going to the ten winners in the various classes and ten silver medals which will be donated to the runnerup in each division.

Submitted by: Drayton Valley Athletic Association, Publicity Committee, Box 642, Drayton Valley, Alta.

ALBERTA HOUSE

Alberta residents planning United Kingdom vacations in May or July may make a request for an invitation to one of these Royal Garden Parties to be given at one Buckingham Palace. In-

vasion requests should be submitted to Alberta House, 37 Hill Street, London W.1, England, according to Hon. A.R. Patrick, Provincial Secretary.

Canada House and Alberta House in London have been advised by the Royal Chamberlain that Her Majesty will hold garden parties Thursday, May 11; Thursday, July 6 and Thursday, July 20.

Alberta's Agent General in the United Kingdom, R.A. McKellen, advises that only requests from resident Albertans will be forwarded to the Lord Chamberlain for consideration. Applications for the May garden party should reach Alberta House no later than March 31, while invitations requests for the July parties should reach Alberta House no later than April 30.

The Chapel Hour

By Miss Ernestine Young, Vancouver, Radio speaker, Secretary Idaho Kingdom Camp.

WHAT IS REQUIRED OF THEE?

It might well be said that man is the only creature who is "out of orbit." As we look at the physical universe we marvel at the minute timing and order that all of the heavenly bodies function in. There is a striking parallel in nature and in all forms of life. Precise movement and order are the theme of the heart of life through out the universe.

Then, man, what a contrast! He lives in a chaotic world, of his own making, torn by selfish problems, wars, the fear of war, until mental illness claims at least one in ten. There are also a host of other diseases, heart trouble, ulcers, etc., caused largely by tensions, anxieties and stresses of modern life, which claim large numbers of mankind as their victims.

In looking at this picture, it ought to be apparent that there must be a reason for such chaos among men. And, I course, there is a reason. However, the reason is constantly overlooked by "intelligent" man because it is so simple and so obvious. There seems to be a quirk in man's mind generally, which demands that the solution or answer to any problem must be complicated, involved, complex and deeply intellectual. And in looking for such deeply hidden answers, he turns over the simple truth time and time again but, of course, he is too busy searching to notice.

Truth is amazing in that it can be stated in the simplest terms, understandable by a child, and yet it has depth of meaning that the wisest cannot fathom. Jesus Christ, the wisest man who ever lived, was the all time master of this. Notice his words, any or all of them, a child can read and understand them and yet scholars cannot fully comprehend their meaning. "I am the way, the truth and the life", a statement made up of one syllable words yet profound beyond definition.

What then is the reason as far as man is concerned which causes him to be so stupid? In one word it is law, or the lack of knowing the laws of life and living in obedience to them. It is not a fact, that each star, planet, and solar system follows an exact precise orbit, which causes perfect order in space. In all life, it is law which brings harmony and continuance of life.

Outside of man, there is no resentment and disobedience to law and order. But man, needs only to hear the word, law, and there is an immediate recognition. This, too, is caused by a basic lack of understanding of law. And, here again, the answer is so simple that it will be overlooked and ridiculed.

Law is a fact. It can be stated no more simply or more profoundly than that. Look at the fact of gravity or the law of gravity, as we call it. This is a fact which exists. A man can be ignorant of it, he can disobey it, and yet it is still there. It is just there and no matter what one would say or do, it remains. A man can jump from a building, and no matter what he thinks or is trying to prove, the fact of gravity pulls him to earth. Does he break the law of gravity? No! He is only broken by the law. Here we come to another amazing fact, which is, law cannot be broken. The individual is merely broken by the law.

Of course, at this point, many will say, yes, that is true of physical laws but does not answer the dilemma that man is in. Let us look again for a moment at the law of gravity. Does the connector who is constructing a building have to take this into account but not the airplane designer? Of course not. Each has to consider this law or force. In other words, this law applies anywhere and is always the same.

And so it is with law itself. Any law that is actually a law always applies. It is always there and just simply exists. Now this applies to all law, moral law, spiritual law, physical law and national law.

Then of necessity we must know what law is and where to find it. We would not look into the vast archives of the "law" man has made or we would find countless thousands of conflicting, contradictory "laws" of every description. Occasionally, man has in truth recognized some of the true laws which are already in existence. However, for the most part, he has missed the mark.

Where then have we looked? We would look to the bible which is a handbook of the laws of life. And it we didn't know this was the source of law for any other reason we would know it by the fact that we have the wars, slanders, families and households which the Bible says would come to man as the natural result of his breaking himself on the eternal law of life.

Dr. Charles E. Fuller Tune in this Sunday!

The Bible is the most amazing and thrilling book in the world when one studies it. Yes, it is still the best seller of all the books, but the least read and studied. An amazing fact about the Bible is that it gives us all the laws of life covering every phase of living, from the individual to the nation, in less than 300 laws. It has made no improvement upon the Divine utterance, in fact, man cannot make law. If law is a fact, a reality, how can man make law? Law is in reality a created force which will exist forever. The Bible states the fact that there is one lawgiver and that is God. (Malak 3:12 and James 4:12). If the one lawgiver is God then it is obviously impossible for man to be a law maker.

The cause of all man's troubles could be summed up as a failure to know and live in harmony with the laws of life. Living in accordance with the laws of God bring life and good. Failure to do so, bring death and evil. This is stated in just these words in Deuteronomy 30:15-20. God's law is the truth. (Psalm 119:160). This applies to all of God's law except that temporary portion, known as the law contained in ordinances, which was done away with in Christ's death. (Ephesians 2:8).

Among God's laws is one of tremendous import which demands our earnest attention. This principle is stated in Luke 12:48 and it is this, "unto whomsoever much is given, of him shall be much required".

To rightly divide the word of truth involved in this principle, we must first identify the "whom" or the one who is given much. On the individual level we would certainly have to identify the Christian as the one who is given much, speaking in a spiritual sense. The Christian is the man who through submitting himself unto Jesus Christ is transformed by the mighty resurrection power and life of Jesus and he is then a new creature. This gift of life is the greatest of all God's blessings. Then the Christian is blessed with all spiritual blessings in Christ as the Bible tells us in Ephesians 1:18 Jesus told his disciples, "I give unto you power over all the powers" (Cont', page 8, col. 1)

THE CHAPEL HOUR

(Cont' from page 7, Col. 3)

of the "crucifix," is the first chapter of Ephesians 4 of the spiritual armor that God has given is described in detail. Over and over the fact is stated that in His great love, God has showed us the Christian every conceivable blessing. The Christian then is certainly one unto whom much is given.

On the national plane, the so-called Christian nations are referred to as "the West" in political circles, as beyond the Christian nations who have been given much. In Bible terminology, these nations are known as the Israel of God. It is hardly necessary to enumerate the blessings which these nations have, which the other nations do not. Last we forget, however, we shall mention a few. The wealth of the nation, the property of the individual citizen, the freedom and liberty which the individual enjoys, an open Bible, a church on nearly every corner, a land rich with precious metals, fine cattle upon the hills, riches and property in every phase of life, all these are just a few of the peculiar blessings which the so-called Christian nations enjoy. Thus, these nations definitely answer to those who have been given much.

Now, the principle is that "whomsoever is given much, him shall be required more." Having identified two entities who answer to having much, what then is required of them? The sum and substance of what is required of those who have much is to be a "blessing" to the Creator who has given them all that they have. This means all that in a national sense, particularly in the field of government.

Then the question, "How? Amen. The answer lies in loving and performing the laws of life, which action openly declares Christ. Of course, no man or nation can do this by simply desiring to do so, for it does not lie within them to become the will of God. However God has not over-looked this, on the contrary, at the greatest of costs, He sent His Son Jesus Christ and then the Holy Spirit into the world that men and nations might be transformed by His life and power, then filled and motivated by the Holy Spirit, until keeping His Word or Law is their first love and desire.

In keeping of this law, as with all God's laws, there is great reward. (Psalm 18:1). Part of the reward is life. Proverbs 4:22, not only now, but forever more. (Psalm 123:3). Thus, the Lord commanded the blessing, even life for evermore."

FROM LEGISLATURE

From the Legislative Press Gallery - Russ Sheppard.

The plight of farmers being caught in the cost-price squeeze

and not receiving a fair share of the national income produced the loudest debate in the Legislature last week. Discussion centered on a resolution introduced by M. Kato (SC-Acadia - Carleton Place) and seconded by Chester Symes (SC-Cambridge) calling for a two-price system for the sale of Canadian wheat. The mover and seconder saw no reason why such a system couldn't work with a fair minimum price for domestic sales and a lower price for sale on the World Market as a competitive price.

Mr. Kato said agriculture is the oldest and most important industry but farmers are not receiving a fair share of the national income. He quoted a number of examples of the farmer not receiving proper payment for his produce. One example was that the label on a can of tomatoes cost three times what the farmer was paid for the tomatoes.

Charlie Johnson (SC-Calgary) said agriculture was the backbone of the industry not protected by tariffs.

Premier E.C. Manning, like many other speakers, was critical of the Co-operative government. He said that when the Conservatives were in the opposition they favored a two-price system for wheat, but now that they are in office they suddenly find many difficulties in instituting the system. "Farmers face many problems," Mr. Manning said. He also said that we would not be facing the marketing problems if we scrapped the necessary lines of credit to needy farmers so they could purchase our products and relieve the hunger and privation that exists.

Earl Ansley (Ind. SC-Leduc) said he was not so optimistic that the two-price system would work. Agriculture Minister Halmarst said that farmers are seriously concerned about being caught in the "cost price" squeeze. Farmers are looking around for the answer according to Mr. Halmarst, and feel the two-price system would be of benefit. Henry Ruess (SC-Wainwright) and Joe Spragg (SC-Drayton) pointed to low farm income. Mr. Spragg spoke of a farmer with a 48-thousand dollar investment in his farm getting only an 18-thousand dollar net return in a year. The farmer could invest the money outside agriculture and do better. Mr. Ruess pointed to the salaries of teachers and others and questioned: "Is it any wonder young people leave the farm?"

Glen Johnson (SC-Ponoka) said the problems of agriculture would be solved if the Bank of Canada was ordered to print a run of money to cover the situation.

The Legislature gave limited study of departmental estimates during the week without any major problems arising but discussion covered a wide range of topics.

Editorials in newspapers, the CBC and statements by two University of Alberta professors brought strong criticism from Agriculture

(Cont' from page 8, Col. 3)

and Manitoba and he hit out at Alberta for delaying action on our report. He charged that Mr. Aslberg was bound up on committee on such an extent that he couldn't make decisions and in this was doing it in his duty to the people and the Legislature. He asked the Minister to resign. Earlier in the session Mr. Watkins had made the same request and the Minister had replied he would be glad to do so if it would solve the problems. On this last occasion Mr. Aslberg was not in the House, having gone to Banff to address a meeting of the Federation of Home and School Associations. Premier Manning went to his Ministers defense, saying the criticism were unfair and anyone who wants public recognition is sure to obtain it if he stands up to condemn education.

"Experiments and tests undertaken with the Athabasca oil sands in the McMurtry area of Northeastern Alberta have proven oil can be produced from the sands at a competitive price with well-produced oil." Replying to questions during consideration of estimated for the Department of Mines and Minerals, Mr. Manning made the comment quoted but he added "we are in no rush because of the present oil market situation. Questioned concerning the prospects of an atomic blast below the surface of the oil sands as a means of separating the oil, Mr. Manning said: "In our view it is a proper peaceful use of atomic energy but the blast has been delayed in view of the van on atom atomic devices".

77 bills have been introduced in the House this session leaving a large amount of work to be done as the Legislature must give clause by clause study to each. This has practically eliminated any hope members have had of finishing the session before Easter.

REPORT FROM LEGISLATURE

By: Mrs. Cornelia R. Wood, M.L.A.

Monday afternoon of the sixth week in the Legislature was devoted to item by item consideration of the estimates for the balance of the Department of Agriculture - a total of \$4,867,250.50. For some time the Committee of Supply begged down on the Farm Purchase Credit Act when Mrs. C.R. Wood (SC-Stony Plain) asked how many farms had come under this Act and what amounts of money had been guaranteed. When L.C. Halmarst, Minister of Agriculture answered that to Dec. 31, 1960, thirty-eight farms had been set up in the Province and 1540 applications had been made to them. Of these, he said, 910 had been approved and a total of

\$4,869,371.00 had been guaranteed.

Farm improvement loans were also discussed at some length and these loans designed to assist farmers in improving their homes may come under further study this year, Mr. Halmarst stated.

The Alberta Employment Measures Organization vice which is for Civil Defence sparked a lengthy debate in which Mr. Halmarst said that radio-active fallout was more dangerous than malaria. The farmer on the farm, the lumberman in the forest as well as the city dweller were in danger of this radiation. Much is being done in the Province by 30,000 civil defence workers taking active parts in their respective communities.

The radio, television and newspapers are not supporting civil defence in the manner that they should, when editorials imply that the organization cannot help in event of attack, said Mr. Halmarst. Both Mr. Halmarst and Premier Manning around the importance of every man and woman taking an active part in civil defence procedures. There has been no discussion of compulsory training like in Russia where every man and woman is compelled to have 32 hours of intensive study in civil defence. There are two-thirds of the population is alerted to protection against radioactive fallout.

On Monday night, estimates totalling \$69,509,370.00 for the new Education Foundation Formula. Hon. A.C. Aslberg, Minister of Education said many school divisions could effect economies without lowering the standard of education. Premier Manning on entering into the debate stated that the new plan never had advanced a tax reduction program. His face objective, he said was to place taxation on a boarder base and to encourage reasonable economies wherever possible in order to be successful it must be a cooperative and concerted effort to control all costs that can be controlled, he said.

The afternoon session on Tuesday-Private Members Day - was devoted to the resolution calling upon the Government to proceed with all speed to provide differential costs in Junior and Senior High School with different departmental examinations in grades 9 and 10, so that natural talents and abilities of each child may be brought out by being equipped to follow an academic, technical or vocational course rather than compel all students to take the same basic University preparatory course. This resolution was moved by E. Watkins (P.C. Calgary Glenora) and seconded by R.S. Ansley (Ind. SC-Leduc). For the second time during the session, Mr. Watkins asked the Minister of Education to resign since he had failed to carry out the recommendations of the Cameron Commission Report, saying fifteen months had passed since the report had been tabled and little

action taken thereon.

In a statement tabled in the House by Hon. A.C. Aslberg, 144 of the 285 recommendations were already in effect when the Report was submitted or have been implemented in whole or in part since that time or will be implemented in whole or in part as soon as possible. Ninety other recommendations will be kept under constant review and may be implemented in whole or in part as conditions warrant or permit. Twenty-five changes have not been implemented and no action is contemplated them, while 19 others are in teacher-pupil and teacher Board category, and will require cooperative action rather than legislation.

During the study of the Public Accounts on Wednesday morning, J.C. Lussier (P.C. Lethbridge) questioned the Provincial Treasurer regarding the investments of the Workmen's Compensation Board and extended the warning that care should be exercised in these investments, to prevent loss similar to that made by the Federal Government. He said that when the Federal Government's Unemployment Insurance Fund got into difficulty, \$72,000,000 of the worker's money was lost in the forced sale of bonds. Provincial Treasurer, E.W. Himean stated that all Bonds were accounted to invest any surplus money by, by purchasing such things as school and hospital debentures. In Alberta,

Wednesday afternoon the Rules of the House were suspended as the report offered by the Tax Council of Canada was presented to Premier Manning for the Province of Alberta for safety driving during the Christmas season. This is the second year in succession that Alberta has won the trophy.

The remainder of the afternoon was devoted to consideration of the estimates for the Department of Health, Welfare, Public Works, Treasury and for Vocational Training.

Thursday afternoon, Private Member Day, E. Gerhart (S.C. Edmonton Northman), asked the Provincial Secretary what the situation was regarding a stop in his constituency which was distributing Trading stamps. Hon. A.R. Patrick stated that a man had been sent in to that area to test the Order-in-Council passed regarding codes which set standards of ethics, methods, practices and systems applicable to all businesses. For contravention of the codes, the Minister may suspend or cancel the licence for each quoted as demanded a person who has previously had a licence cancelled under the Act. The man in question had been given the warning to stop issuing Trading stamps. Mr. Patrick said, and if after due time this is not stopped his licence will be cancelled.

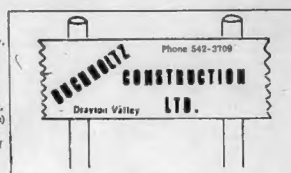

Mr. S.C. Kato (SC-Coronation) moved a resolution asking the (Cont' page 10, Col. 1)

REPORT FROM LEGISLATURE

(Cont' from page 9, col. 3)

Legislative Assembly to urge the Federal Government to establish a two-price system for the sale of Canadian Wheat under which producers would be assured a fair minimum price for their portion of their production shorted by the domestic market with the balance being sold on the world market at prevailing competitive prices. Mr. A. Raine (S.C. - Wainwright) seconded the resolution and stated that we are going through a silent revolution in which our young farmers are revolting against the farm because of the expensive equipment required and the small returns for the large investment. He quoted the Federal Minister of Agriculture as saying that one third of the farmers in Canada have an income of \$1000.00 per year or less. There is great need for a two-price system to help relieve this situation he said.

Hon. A.J. Hoole entering in the debate said that down through the years he can remember many things being offered the farmers to relieve their problem of "prices for everything he sold too low and prices for everything he had to buy too high". First it was suggested by farmers, live stock producers etc. that Co-operatives be formed. So eggs, cream co-ops etc. were started but still the problems remained. Then a man by the name of Sapiro, he said, came along and offered as a solution the Wheat Pool. So far this has not solved the problem. The Federal Government has established floor prices, advanced reduction in acreage and in production etc.

Mr. Hoole said all these and others have not worked in solving our farmers problems. It all resolves itself back into the fact that we are still under the false economic system, this these things will not relieve the situation. As Social Creditors we know the solution is the reform of the monetary system, but until then let us use this step of the two-price system to help relieve the problem of the farmer, he said.

Friday was devoted to passing the estimates of the Highway Department amounting to \$42,377,848 and the total budget of \$236,997,950, 50 was given approval. In answer to questions about snowplowing of public highways Hon. Gordon Taylor Minister of Highways stated that the Department has 59 snow units for use as soon as a snow storm hits and there are 90 units for sanding and salting slippery roads. It is the policy to get the snow off the roads as quickly as possible. The blue flashing lights indicate Highway equipment and "blue" was chosen purpose so to not be confused with fire and ambulance vehicles.

For the bridge over the Pembina River at Bowdoin-Evanburg on Highway 16 it is anticipated that \$2,000,000 will be spent and

this year plan are for the building of 200 miles of hard surface roads and stabilized beam concrete on another 160 and 200 miles throughout the Province.

Twenty-two new bills were introduced during the week and eight five bills will be given study next week.

Curling

Hudson Bay Mixed Bonspiel

A very successful mixed bonspiel was held in the curling rink on March 23 to 26. There were 40 teams entered, 17 from out of town.

Staff Picture

In the end-of-the-season curling bonspiel The Hudson's Bay Open Mixed Bonspiel March 23, 24, 25, and 26th, the rink skippered by Bob Barker emerged with the big Hudson's Bay Trophy. As well as the trophy they won four Hudson's Bay blankets, and four minisuits. In the above picture they are left to right, Bob Barker, Skip, May Thompson, lead, Gail Fairbairn, Third, and Dr. H. Shimbashi, Second.

Staff picture.

Presentation of the Roy Burrows Trophy. A trophy to be presented annually to the high-scoring player in Pee Wee Town League Hockey. Here is seen, left to right, Coach Bill Ward, of the D.V.A.A. Canadians, with Kenny Lamon receiving the trophy. Kenny came up with a remarkable total of 28 points in ten games, 10 goals and eighteen assists; and on the right, Roy Burrows making the award of the Roy Burrows Motors Trophy.

PRICES GOING DOWN The cost of electricity has gone down over the last 20 years, while the cost of other fuels has risen. The cost of other fuels has risen. The cost of other fuels has risen.

These local rinks took first prizes in the three events while second prizes to all three events went out of town.

1st Event - 1. Barker
2. Hansen
3. Polley
4. Anderson

2nd Event - 1. Griffith
2. Sammerman
3. Barr
4. Davies

3rd Event - 1. McLaren
2. Robinson
3. Gylander
4. Stevenson

This was the final spiel of the season.

YOUR FIRE DEPARTMENT

By Ross Quinn

We have two fires to report this week: The first was on Good Friday, one mile north of Rocky Rapids, where a brush fire had got away and had threatened farm buildings. The second occurred on Easter Sunday and was simply our annual excursion to the nuisance grounds to stop a fire which had got into the bush.

There have been a few inquiries about us answering calls out of town, so we shall take this opportunity to clarify our policy.

Your fire department was set up to serve the town of Drayton Valley and any fire within two miles of town limits. Cost incurred in any call out of town limits is borne either by the municipality or the parties involved. They are not absorbed by the Town of Drayton Valley and its taxpayers.

In the case of a call more than two miles out of town limits (such as the one at Rocky Rapids) the engine does not go. A limited number of volunteers will take surplus equipment and with the aid of a water truck will do what can be done. That way your fire department can serve a much larger area, and at the same time give the local resident the ever-present protection he is paying for.

ROCKY RAPIDS FIRE

(Cont' from page 1, Col. 3)

When the first came here he lived with the Topsteads, at he worked with Mr. Topstead Sr. in the lumber camps and sawmills of that day. Previous to filing on the homestead here he had filed on a homestead in the Tomahawk district. In those early days the settling of this district worked almost entirely in the logging camps in winter, and in sawmills in the summer, improving their homesteads as best they could between times. One summer Mr. Taylor made three log drives from this area, down the Saskatchewan river to the sawmill near Edmonton.

Jimmie has never married. An old-age pensioner, he helps Conard Topstead with the chores at the old Topstead farm just north of Drayton Valley.

The house was saved from burning in the brush fire by three boys who happened to be nearby. Two sheds adjacent to the house were completely burned.

CHAMBER OF COMMERCE MEETING

Staff Photo.

Mr. John Dwan, vice-president of the Chamber of Commerce, presents the medallions which the Chamber had engraved to honor the four Drayton Valley boxers who fought in the Golden Gloves competition. Left to right they are: Barry Thompson, Rufus Combs, Gary Mestre and Orvin Combs.

About forty persons attended the Drayton Valley Chamber of Commerce held in the Club Grill last Thursday evening. Highlights of the evening was the presentation of the engraved medallions to four of those young boxers who took part in the Golden Gloves Exhibition in Edmonton, one of whom, Rufus Combs came back with the title of "Golden Boy".

The meeting was opened by president C.D. Fuhr, after which routine business was discussed, with the reading of the minutes by Secretary Johansson following

BOWLING BANQUET

Concluding a very successful bowling season some 250 bowlers sat down to their annual banquet in Elks Community Hall last Saturday evening. The excellent meal was catered by Bruce Lee Catering.

Following the dinner the presentation of the many bowling trophies was made to the successful bowlers. Master of ceremony for the evening was Bob Simons who did a very good job in that capacity even though he is, by his own admission a bowler who can do better with five balls and three pins. Announcement of the trophy winners was made by Al Bell, with Bowling Manager Rod Gervais making the presentation of the trophies. During the course of the evening congratulations were extended to Rod on the recent birth of his baby daughter.

Trophies were donated by the Drayton Valley Hotel, Pembina Drug and Valley Drug, Drayton Bakery, Hudson's Bay Company and A. Meier Insurance.

During the presentation of the trophies the floor was cleared for dancing and afterwards the bowlers danced to music provided by the Devon Diamonds.

Manager Rod Gervais has announced that a Ten Tournament will be staged soon. Drayton Valley ten-pin bowlers gave a first class accounting of themselves in four province competition in Edmonton recently. This will be reported in an early issue, with pictures of the ten bowlers.

Pictures of some of the bowling winners may be seen on the left, with others on page three.

William Wollschlager was born in the country was logged off during Germany in 1930. He came to Edmonton in 1931 and homesteaded in the logging camps during the winter, homesteaded and cleared land in the fall of 1931, and he has his farm during the summer. He said that logging operations were conducted in this district from just after the turn of the century until about 1925.

Another source of revenue for the early settlers was trapping. Wollschlager states that there was a good number of small game in the area at that time, including muskrat, mink and foxes. Fur, in those days, before the advent of synthetic furs, brought comparatively much better prices than now. Mr. Wollschlager ran traplines also, until the winter of 1940 when he started to get antiferous quite bad and that curtailed his activities.

He married Miss Georgia Olson whom he met while visiting his sister in Oregon in 1930. At the time of her marriage Mrs. Wollschlager was teaching school in Oregon and several years after coming to Canada and this district with her husband she started teaching in various schools of this district. She first taught in Drayton Valley in 1942, in the one-room school that was the school of that day. She taught there with him, while down in the Brazeeville district their closest neighbor was seven miles away. Mr. Alberta Gritz, who was located on the Blue Rapids Flat.

When the Wollschlagers left the early days in this district, when the lumber camps were here and

Staff Photo.

Winner of the big trophy presented by the Drayton Valley Hotel were the "Bugs". Left to right they are: Clay Jones, Ethel Jones, Al Bell, Germaine St. Louis and Bill Harper.

LAND SALES

HUGE ALBERTA SALE OFFERS 95 LAKES

The second Alberta government 1961 Crown reserve sale has been scheduled for Tuesday, April 26 and tenders will be accepted up to 2 p.m. at the office of the Alberta director of mineral rights in Edmonton. There are 58 leases offered in proven field areas and 31 in other areas.

The proven field areas include: Altonkwa, Carbon, Carlisle, Carson Creek North, Crossfield, Deer Mountain, Hartman East, Hartman Elkon, Homestead-Kim bay, July Creek, July Creek West, Pembina, Swan Hills and Virginia Hills, with 28 of the land

Mr. Wollschlager tells of the early days in this district, when the lumber camps were here and
